3. Applications will also be considered for the import of second hand printing machines from newspaper establishments and quality printers subject to the following conditions:—

- (i) Barring exceptional cases, the machines to be imported should not have been used for more than ten years and a certificate to that effect is furnished from foreign suppliers indicating the serial number, make and model of the machine in question.

- (ii) A certificate is furnished from a qualified printing engineer of the supplying country—West Germany to the effect that the machine in question would be capable of service for a further period of at least ten years.
- (ii) An undertaking is furnished from the foreign suppliers that spare parts for the machine in question would be available at least for a period of ten years.

4. Applications for licences should be made to the Chief Controller of Imports and Exports, New Delhi in form 'B' in the prescribed manner, complete in all respects so as to reach him by the 10th December, 1968 at the latest. Applicants whose applications for the import of printing machinery already made for the licensing period April 1968—March 1969 and are pending with the licensing authority on the date of this Public Notice or have been rejected as being incomplete or for non-availability of foreign exchange, need not submit fresh applications, but instead communicate their willingness that they are still interested in the import of printing machinery from West Germany by quoting this office reference number and date by the said last date viz., 10th December, 1968.

5. The applications from quality printers should be forwarded through the concerned sponsoring authority viz., the Director of Industries concerned in the cases of printers registered as small scale units and the State Controllers of Printing in the case of other printers as laid down in para 166(2) of the Import Trade Control Hand Book of Rules and Procedure, 1968.
